AAKIF SHAIK

Business Analyst | Business Analytics | Financial Analysis

United Kingdom | +44 07352686750 | aakif8564@gmail.com | LinkedIn | GitHub Project

PROFESSIONAL PROFILE

Business Analytics professional with over two years of experience in audit and finance, backed by an MSc in Business Analytics, a BCom in Taxation and CMA Intermediate. I bring a combination of financial knowledge and analytical skills, with hands-on experience using Excel to analyse information, prepare reports, reconcile financial data and assess risks. I enjoy understanding how businesses operate, identifying issues, working with data and turning findings into clear and practical insights. I am now looking to apply this experience in a Business Analyst role, supporting business decisions, improving processes and helping teams solve operational challenges.

CORE SKILLS

Business Analysis | Business Process Analysis | Process Mapping | Process Improvement | Gap Analysis | Business Documentation | Stakeholder Communication | KPI Analysis | Business Reporting | Data Analysis | Financial Analysis | Financial Reporting | Risk Assessment | Problem Solving | Advanced Microsoft Excel | Microsoft PowerPoint | Requirements Gathering

PROFESSIONAL EXPERIENCE

MSc Business Analytics Dissertation | University of Greenwich

2025 – 2026

- Investigated the relationship between ESG performance and financial performance across 60 publicly listed companies in Banking, Retail and Technology, covering 2020–2025.
- Collected, organised and prepared company-level data from LSEG/Refinitiv and ORBIS, working with ESG Score, ROA, ROE, Firm Size and Leverage variables.
- Used Python to clean and analyse the data, carrying out descriptive statistics, Pearson correlation and multiple regression to understand the relationship between ESG and financial performance.
- Compared results across Banking, Retail and Technology using industry-specific regression and ESG × Industry interaction analysis, identifying differences in the relationship between ESG and ROA.
- Interpreted the statistical findings and presented them through clear analysis and reporting, translating the results into practical insights for managers, investors and business decision-makers.

Business Analytics Intern | London Success Academy, London, United Kingdom

Jan 2026 – Feb 2026

- Analysed business data using Microsoft Excel to identify trends, patterns and useful insights that could support day-to-day business decisions.
- Cleaned and checked datasets in Excel, making sure information was accurate, consistent and ready for analysis and reporting.
- Prepared clear reports and visualisations in Excel to present findings in an easy-to-understand way to mentors and the analytics team.
- Worked with senior analysts to discuss findings, understand the business context and turn analysis into practical recommendations.

Article Assistant (Audit & Finance) | Kevalin Consultants, Hyderabad, India

Aug 2023 – Jul 2025

- Supported statutory, internal and tax audits for clients across different sectors, reviewing financial records and audit documentation using Microsoft Excel and Tally ERP.
- Prepared and checked financial statements and audit working papers, using Excel to reconcile figures, investigate differences and maintain accurate financial information.
- Handled GST, TDS and Income Tax computations and filings for 15+ client accounts, analysing financial records through Tally ERP and Excel and helping ensure submissions were completed accurately and on time.
- Supported senior auditors with internal control reviews and risk assessments by examining financial processes and identifying areas that required further attention.
- Maintained and reviewed accounting records in Tally ERP and Excel, carrying out monthly reconciliations and supporting reliable financial reporting.
- Communicated directly with clients to understand and resolve accounting and tax queries, explaining issues clearly and working through practical solutions.

ADDITIONAL EXPERIENCE

Student Volunteer | Institute of Directors (IOD), India

London, United Kingdom | November 2025

- Volunteered at the 2025 Annual London Global Convention on Corporate Governance & Sustainability, helping with event activities and supporting the smooth running of the programme.
- Interacted with professionals and other attendees during the event, gaining experience in professional communication, teamwork and networking.
- Took the opportunity to learn more about corporate governance, sustainability and current business practices through the event and discussions with professionals.
